

***FOR IMMEDIATE RELEASE - RecordMax Rolls Out Print Media Storage and Fulfillment Solutions***

July 18<sup>th</sup>, 2007 – Chattanooga, Tennessee

**RecordMax USA, LLC** announced the formal roll out of print media storage and distribution services at its Chattanooga location.

After working with technology partners at DHS Worldwide and a select group of customers over the last several months, **RecordMax Chattanooga, LLC** began providing a new service wherein media publishing houses, business partners and other customers could gain warehousing and temporary storage services for a limited category of products along with incremental distribution and inventory tracking.

"It is very important to both our customers and our internal team members to add complimentary services that help build on our reputation of helping businesses maximize efficiencies in managing information assets" stated Jim Teske, President of **RecordMax USA, LLC** the parent company for a growing number of **RecordMax** locations around the Southeast. "Providing fulfillment solutions for information published in hardcopy form, where customers can gain a safe and secure storage environment for a limited time as well as accurate tracking of anything coming in and out of our facilities, was a perfect addition to the **RecordMax** family of services."

A test offering has been in place for about 45 days with three customers of various size and service requirements during which **RecordMax** has worked closely with one of its numerous technology partners; DHS Worldwide of Orange Park, Florida. During the six week service test, managers at **RecordMax** worked closely with both customers as well DHS developers, technicians, systems trainers and support personnel to personalize product descriptions, workflow, inventory tracking and shipping labels to assure the accuracy and "customer friendliness" of the new offering.

Pending expansion of the program to other **RecordMax** markets as well as enhanced services such as an online web portal for direct access by customers is planned within the next 60 to 90 days. Kudos to **Chattanooga Branch Manager Shari Hixson** and the DHS team for their commitment and dedication in the new Chattanooga service roll out on top of the full time responsibilities each carries in serving a growing number of traditional information storage and management customers.

***About RecordMax***

**RecordMax** is an emerging leader in providing secure information storage and management services to law firms, hospitals, business professionals, government entities and other professional organizations. Our archival services range from the protection of business records, files, computer tapes and other sensitive media to digital storage of electronic documents, images, email and web content. Enjoy convenient and professional delivery and retrieval solutions...we treat every item we handle just like the largest of shipping companies; with barcode based tracking technology and portable receipt printing by the drivers that bring information assets right to your door.

The resources and experience of our management combined with hiring the best possible leaders for local customers assures confident, consistency and quality from people our customers have come to trust. With a growing number of locations around the Southeast, **RecordMax** stands ready to be a trusted part of your information management team.

You'll be glad you chose the people, the facilities and the business solutions at **RecordMax**.
